

# G6

Brought to you by

## User guide videos

### Getting started with G6

#### Your multi-functional energy payment unit from Switch2

Manage your energy consumption through the in-home display functionality

This shows your energy consumption & daily usage on simple to understand graphs & gauges

### In-Home Display Screens

#### Consumption/Cost [view here](#)

Contains information on energy used, its cost, emissions & current usage.

#### Account info [view here](#)

Shows current balance, arrears & purchase history.

#### Usage Comparison [view here](#)

Graphically displays consumption for each fuel.

#### Historic Comparison [view here](#)

Contains graphs displaying consumption for Today, Yesterday, Last 7 days & the Last 12 months.

#### What happens when credit arrives? [view here](#)

When credit is sent to the G6, an on-screen message will appear.

#### Activating Emergency Credit [view here](#)

If credit is about to expire, or already run out, the G6 has an emergency credit facility.
